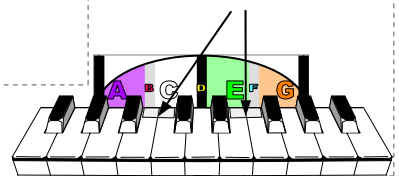
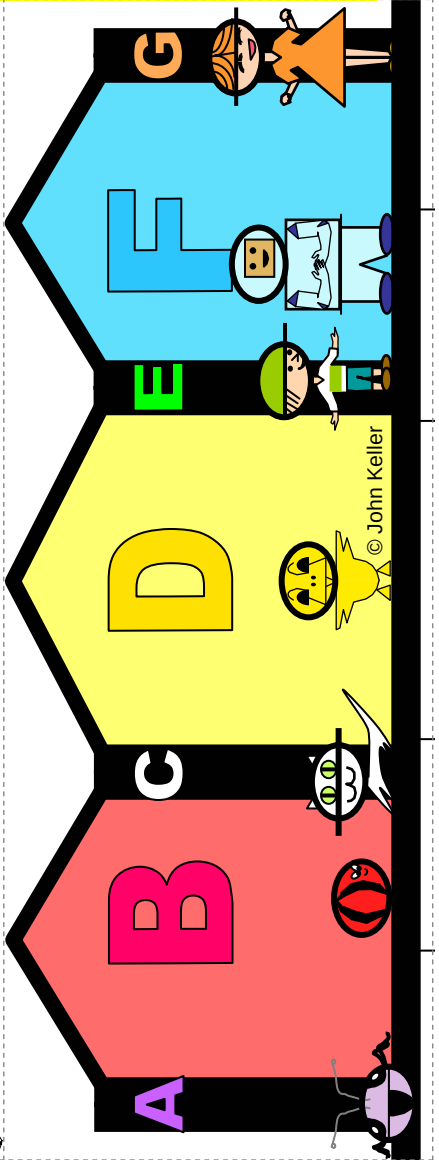
Keyboard Guides:

- **Degree Card**
- **3-line guide**
- **2 alphabet guides**
- **middle characters guide**

Cut out along all dotted lines.

The yellow ‘degree card’ is moveable, designed to show the correct notes for any key signature.

The other guides are designed to fit only in fixed positions by means of ‘**tabs**’.




Laminate the guides by placing all in one lamination slip, but spacing the alphabet and 3-line guides to allow for these tabs. Cut out the guides and fold tabs forward.
